## BBB Application Information sheet

Applying for the BBB is a competitive process. Your bands artistic integrity and overall musicianship is most important and so **a good quality recording is essential** however the following areas will also help strengthen your application:

### Band Biography

Your bands bio should tell us what your band has done, when, where you have performed and what your major achievements as a band are.

### Band Photos

You need to provide us with the best quality photos possible – if you are selected to perform in the BBB these images will be used in our promotional material. The photos need to be high res so they can be used for printed marketing material e.g. posters.

### Video

Video footage or youtube links should be the best quality possible because as well as it giving us an idea of who you are and how you perform we can use this footage for promotional material.

### Support Letters

Support letters are important as they indicate if there are any organisations in your community who are able to provide logistical help for your band.

### Tech specs

Provide comprehensive technical requirements of everything you need.
